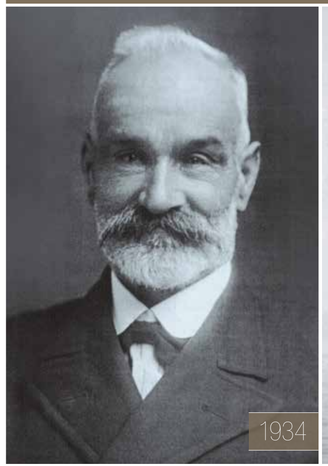
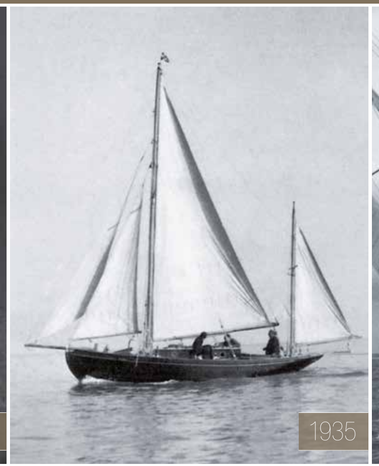
Swanwick on the River Hamble was home to Moody Yachts from the middle of the 19th century and the boats built there encompass more than 150 years innovation. The founder John Moody passed away in 1880 and was succeeded by his son Alexander. He determined that all Moody yachts would feature the highest quality materials and workmanship – and this continues to the present day. Since 2007 another well-established boat manufacturer has been continuing the Moody tradition: HanseYachts AG. As a result, the production process is now almost entirely automatic, precise to a millimetre and significantly faster than before.

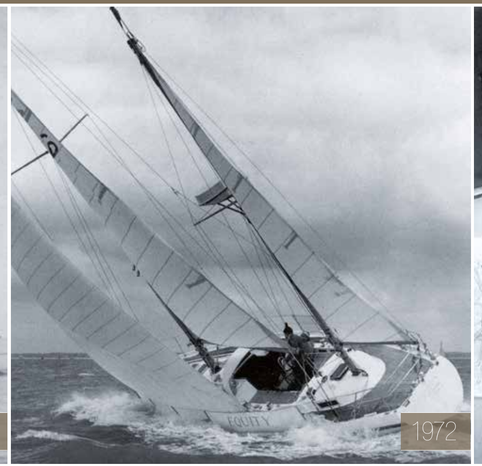
moody yard
tradition & vision



Alexander Herbert Moody – Grandson of the Moody founder defined Moody's high quality characteristics.

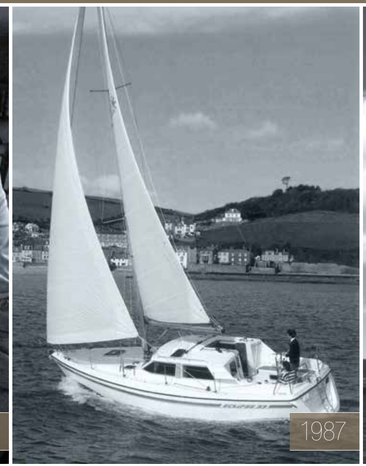


The "Vindilis", the first Moody yacht.



Moody 44 – The first yacht carrying the Moody name, was completed after three years of development.

Moody 47/471 – First yacht designed by Bill Dixon.



Moody Eclipse 33 – Designed by Bill Dixon.

Moody DS45 – With their first deck saloon HanseYachts manages to transfer tradition to modernity.

Moody AC41 – Combines the best of modern design and engineering with the traditional values associated with Moody Yachts.
